## Digital Voice Recorder

### features

- ▲ **Includes Dragon Naturally Speaking™ Preferred Voice to Print Software** to easily convert your recorded files into text
- **Up to 696 Minutes Recording Time** is available on the integrated circuit chip which may be recorded over and used again
- **USB Compatible for Fast Transfer Rate to a PC Includes Digital Voice Editor Software** via USB port on a PC
- **Choice of Stereo, SP and LP Recording Modes:** ST–85min, SP–250 Min, LP–696 Min
- **Digital Voice-Up Function** increases the volume of the person speaking when recorded at a distance from the unit
- **Multi-Directional Microphone + Directional Microphone Mode** easily adjusts the direction of the microphone to improve the recording quality
- ▲ **Overwrite Correction Function** allows the user to rewind to a location and re-record the dictation.
- **High Quality Sound—“LPEC™ CODEC”** with improved frequency response ensures excellent recorded sound clarity
- **Advanced Digital VOR (Voice Operated Recording)** stops the recording during silent pauses, saving valuable recording time, then begins recording again without missing a single syllable thanks to the digital buffer
- **5 File Folders** provide separate message areas for different applications such as business memos or personal reminders, for better organization and faster access
- **Priority Function** automatically moves priority marked dictations to the front of the list of recordings in the folder
- **Voice E-Mail Function** Using the supplied digital voice editor software lets you easily send audible e-mail with an attached file
- **Slim Style Design** only one-half inch thick, with Record and Pause controls located on the side of the unit for easy operation; fits neatly into a shirt pocket
- **Easy to Use Playback/Edit Function** lets you begin playback with the press of a button, then edit the recordings with equal ease
- **Digital Pitch Control/Playback Speed Control** allows recordings to be heard at slower than normal speeds without distortion to facilitate transcribing or editing, or faster than normal to move quickly to a desired portion
- **Full Function LCD Display** shows number of messages recorded, recording length, date, time, and battery power remaining
- **One Button Play from Record** lets you switch from Recording mode to Play mode with one finger

- **Incremental Rewind (Easy Search)** is the equivalent of tape Fast Rewind but without returning all the way to the beginning of each recording, to help locate specific passages
- **32MB Built-In Flash Memory** uses high capacity IC chip, which may be recorded over itself and used again and again, with distortion-free clarity
- **Built-In Playback Speaker** for monitoring playback of recordings
- **Record-Pause Function** temporarily stops recording to allow for pauses in dictation or to provide time for reference to documents, then resumes where recording was stopped, at the press of a button
- **Add-Recording Function** allows you to insert and add additional information to any message without affecting the original
- **Battery Strength LCD** provides a visible signal of battery strength
- **Hold Switch** prevents accidental operation or changes to settings while carrying the unit in pocket or briefcase
- **A-B Repeat Function** enables a specific segment of the recording to automatically play over and over again
- **Hi/Lo Mic Sensitivity** enables the unit to record different situations, from group meeting to individuals, more effectively
- **Stereo Earphone and Microphone Jack** allows listening through earphones for privacy or transcription and connection of an external microphone for special applications
- **LED Operation Indicators (Record/Play)** indicates Red when unit is recording, Green when in playback mode
- **Microsoft® Windows® 98/2000/Me/XP Compatible**

### specifications

**Recording Media:** Flash Memory Built-In 32MB

**PC Connectivity:** USB

**Speaker:** 1 ¼" (32mm) dia.

**Input/Outputs:** USB Port, Earphone Jack, DC-in Jack, Microphone Jack
